STRONG TONE IN STOCKS

The Railway List Notably Firm. American Tobacco Advance-Sugar mefining Breaks Sharply-Third Avenue Gains, But Is Still Feverish.

was only moderately active in the carly dealings, but its tone in the main was one of strength. The railway list continued notably firm, with large dealings at ad-vancing prices in Atchison issues and in the stocks of the Southern railroads. Among the specialties there were marked im-provements in People's Gas, Western Unon, Metropolitan Street Railway, and American Tobacco.

The conspicuous features of the market however, moved in a direction contrary to that of the general list. Taese were notably Sugar Refining and Third Avenue. The first-named broke sharply in the early dealings, apparently on account of the general discussion of the demoralized conditions and the belief that the dividend to be declared next week will be at a reduced rate. Third Avenue, on the other hand, was comparatively firm. The stock, however, continued feverish. The London market showed advances in American stocks, but the dealings here for foreign account were on an unimportant scale.

There came a turn in the Stock Market this morning which it was thought might mark the end of the break in the special-ties, at least, for the time being. Prices were well held up and there was a gen-eral buying demand in evidence. In ad-dition to this the news bureaus generally dition to this the news bureaus generally ecited for the first time in a week or more the obvious features of strength in the situation, which are no more obvious now than they were yesterday, but which the parently. The railway securities, some of them, were even buoyant, and the general railway list more than held its own. The Third Avenue situation developed nothing new this morning. The stock sold at 50 1-2 and then advanced. Many believed that the low price had been reached. Brooklyn Rapid Transit was the weakest Brooklyn Rapid Transit was the weakest of the traction group with a break to below 65 early in the day. The others made no advance worth anything, apparently because of the recent reiteration of the talk regarding the franchise tax. There is nothing in this tax that need frighten anye. The proportionate part of the tax to borne by each line will be small.

American Steel and Wire, common, was fairly strong this morning, and the others of the steel and iron group held their own well. It is generally believed that these stocks will be among the leaders of the next upward movement. The net earnings of Tennessee Coal and Iron for January were \$281,865, a gain of \$87.239.

Among the grangers, Atchison, preferred and Rock Island were the strongest. Atchison, preferred, advanced nearly to 65 early in the day and showed every evidence of going higher. The fine Atchison statement ad a good effect on the group.

The net earnings of the Reading for January were \$804.514, a gain of \$87,881.

It is now said again that there will be n steps toward the reorganization of the capital stock of the Leather Company at today'r meeting. Sluch has been promised and many advices to buy the common stock have been made, but apparently the predictions of action by the company were all made for the purpose simply of induc-ing outsiders to buy.

"JUST WHAT ALL OUR READERS NEED"

A genuis of Cincinnati has placed on the market a new Bath Cabinet, whereby anyone resting on a chair within enjoys the famous Turkish, hot vapor, or medicated baths at home for 3 cents each, heretofore enjoyed only by the rich at public bathrooms, health resorts, hot springs, and sanitariums. These baths are celebrated for their marvelous cleansing, curative, purifying, and invigorating effects tive, purifying, and invigorating effects. tive, purifying, and invigorating effects upon the human system, and this invention brings them within the reach of the poorest person in the country. Clouds of hot vapor or medicated vapor surround the entire body, opening the mil-lions of sweat pores, causing profuse per-

piration, drawing out of the system all impure salts, acids, and poisonous matter, which, if retained, overwork the heart, kidneys, lungs, and skin, causing disease,

fedneys, lungs, and skin, causing disease, fevers, debility, and sluggishness.

Astonishing is the improvement in health, feelings, and complexion by the use of this Cabinet, and it seems to us that the long-sought-for natural method

of curing and preventing disease without medicine has certainly been found.

The makers inform the writer that more than 116,387 of the Cabinets have been sold since August, and showed letters from thousands of users who speak of the Cabinet as giving antips satisfaction.

Persons who were full of drugs and nostrums, and had been given up to die, were restored to perfect, robust health, to the astonishment of their friends and physicians.

Lafferty, Covington, Ky., unable to walk, was cured of rheumatism, piles, and kidney troubles. A prominent citizen of Mount Healthy, Ohio, Mr. Owen C. Smith, afflicted since childhood, was cured of catarrh. asthma, hay fever, and writes; "Have sold asthma, hay fever, and writes: "Have sold hundreds of these Cabinets: Everyone was delighted." Rev. H. C. Roernaes, Everett, Kan., says: "It's a blessing; made me full of life and vigor. Should be in use in every family." Rev. Baker Smith, D. D., of Fairmont, says. "Your Cabinet rids the body of aches and pains, and, as cleanliness is next to godliness, it merits high recommendation."
